SELECTION CRITERIA FOR MATERIAL HANDLING SYSTEM:
A CASE STUDY OF HARDDISK DRIVE IN FACTORY

Mr. Sorasak Sinchalong

A Thesis Submitted in Partial Fulfillment of the Requirements
for the Degree of Master of Engineering in Engineering Management

The Regional Centre for Manufacturing Systems Engineering

Faculty of Engineering

Chulalongkorn University

Academic Year 2003

ISBN 974-17-5076-5

Acknowledgements

I am grateful to my thesis advisor, Assistant Professor Suthas Ratanakuakangwan for his kind guidance and valuable suggestions throughout the duration of the thesis.

I would like to express my sincere thanks to Professor Sirichan Thongprasert, the chairman of Thesis committee, and Associate Professor Chuvej Chuvej Chansa-ngavej, member of the Thesis Committee, for their kind suggestion during the entire course of the study.

I would like to express my gratitude for the intellectual suggestion to Mr. Sittirach Kwantaworn, my thesis co-advisor who give me a valuable advice about the studied factory.

I would like to show appreciation to all lecturers and program staffs who giving me the knowledge and impressive period of my life during joining this course.

My respect and love are for my beloved parents who have been such a source of support, strength, encourage, and understanding.

	Page
Abstract (Thai)	iv
Abstract (English).....	v
Acknowledgement	vi
Contents	vii
Chapter 1 Introduction	
1.1 Statement of Problem.....	4
1.2 Objective of the Study	5
1.3 Scope of the Study	5
1.4 Expected Results.....	5
1.5 Methodology	5
1.6 Project Schedule	6
Chapter 2 Literature Survey	
2.1 Material Handling	7
2.2 Material Handling Interests and Activities.....	8
2.3 Objectives of Material handling	8
2.4 Material Handling system's component	8
2.5 Purpose and Benefit of Material Handling	9
2.6 Important of Material handling system	9
2.7 Activities and Area of interest in Material handling system	10
2.8 Material Handling Equation.....	11
2.9 Type of Material Handling Equipment	11
2.10 System categorizing by the type of equipment	12
2.11 System categorizing by the function of equipment	12
2.12 System categorizing by movement of the equipment	16
2.13 The unit load concept	17

Contents (continued)

	Page
2.14 Types of material handling equipment	21
2.14.1 Conveyors	21
2.14.2 Crane, Hoists, Monorails.....	31
2.14.3 Industrial trucks	37
2.14.4 Auxiliary Equipment	46
2.15 Design the Material Handling System	51
2.16 Critical Success Factor (CSF)	62
Chapter 3 General Information	
3.1 Company Background.....	64
3.2 Manufacturing and Facilities.....	65
3.3 Products	66
3.4 Organization Chart	67
3.5 Manufacturing Process	70
Chapter 4 Problem Identification and Current Situation Analysis	
4.1 Material Handling System for HGSA Manufacturing.....	77
4.2 State of nature and Selection criteria	86
4.2.1 Addressing Selection Criteria (Using Critical Success Factor)	86
4.2.2 Condition of State of nature of the system	87
Chapter 5 Improvement for Material handling system selection	
5.1 Material Handling System basic requirement	98
5.1.1 Shock and Vibration requirement	98
5.1.2 ESD (Electrostatic Discharge) and Cleanroom requirement	98
5.1.3 Environment Health and Safety Requirement	99
5.2 Proposed Material Handling System for Seagate, Teparuk Plant	100
5.2.1 Option I: Minimize the system investment and facility cost	101
5.2.2 Option II: Minimize the system labor cost and WIP cost	110

Contents (continued)

	Page
Chapter 6 Proposed Material Handling System and Transition Plan	
6.1. Proposed Material Handling System for Seagate, Teparuk Plant	121
6.2 Long range capacity plan (3 years plan): 2nd Quarter of the year 2004	127
6.3 System transition plan based on selection criteria	128
6.4 Summary.....	130
Reference	133
Biography	135
