ASSOCIATION BETWEEN SPECIFIC ANTI-WSP IgG SUBCLASSES AND
CLINICAL MANIFESTATIONS IN LYMPHATIC FILARIASIS PATIENTS

Miss Pornpun Jaratsing

A Thesis Submitted in Partial Fulfillment of the Requirements
for the Degree of Master of Science Program in Medical Science

ACKNOWLEDGEMENTS

This thesis has been successful due to the valuable help, advice, suggestions and interest of my advisor, Associate Professor Dr. Surang Nucnprayoon, Department of Parasitology, to whom I would like to express my deep gratitude. I am very much grateful to Professor Apiwat Mutirangura, M.D., Ph.D., Assistant Professor Sonthaya Tiawsirisup, D.V.M., Ph.D., and Tanittha Chatsuwana, Ph.D., for their valuable comments and suggesting in the thesis committee.

I would like to give my special thank to Miss Vivornpun Sanprasert, Miss Chantima Porksakorn, Miss Alisa Junpee, Mister Sivapong Sungpradit, and Mister Anuwat Pinyachat for their help and cheerful. In addition, I would like to express my special thank to the lymphatic filariasis research unit of the Chulalongkorn university for providing me the conveniences.

Forthemore, this study was supported by the Molecular Biology Department of Research Affairs, Faculty of Medicine, Chulalongkorn University and Graduate School, Chulalongkorn University. Specials thanks to Ann, Tle, Tun, Yang, Pop, Not, Jeep and my friends who work on the 10th floor of Chula MRC for their help, sincerity and friendship.

Finally, I will not forget to give special thanks to my parents and every members in my family for support during my graduate study and their kindness, understanding all the time; thank you very much.

LIST OF ABBREVIATIONS	xiv
CHAPTER	
I INTRODUCTION	1
1. Background and Rationale	1
2. Research Questions.....	8
3. Objectives of the Study.....	8
4. Keywords.....	8
5. Conceptual Framework.....	9
6. Benefits and Applications.....	10
II LITERATURE REVIEW.....	11
III MATERIALS AND METHODS	30
1. Study population.....	30
2. Blood specimens.....	31
3. Parasitological study.....	31

4. ICT Filariasis card test.....	31
5. Enzyme-linked immunosorbent assay (ELISA)..... for anti-rWSP subclasses	32
6. Statistic analysis.....	32
IV RESULTS	33
1. Characteristics of the study populations in 5 Districts,..... of Tak province Thailand, according to their infection status	33
2. Anti-rWSP IgG1, IgG2, IgG3, and IgG4 antibody levels..... in patients with bancroftian filariasis	34
V DISCUSSION AND CONCLUSION	39
REFERENCES.....	45
APPENDIX.....	60
BIOGRAPHY.....	62

LIST OF TABLES

	Page
Table 1 Major pathogenic filarial parasites of humans.....	12
Table 2 Demographics details of the study population in the study.....	16

LIST OF FIGURES

	Page
Figure 1 Electron microscopy of a cross-section of a <i>Dirofilaria immitis</i> microfilaria (mf).....	5
Figure 2 Taxonomy of the family Onchocercidae.....	12
Figure 3 Life cycle of lymphatic filarial parasites	16
Figure 4 Taxonomy of the genus <i>Wolbachia</i>	24
Figure 5 Phylogeny of <i>Wolbachia</i> based on 16S rDNA gene sequences.....	26
Figure 6 Optical density (OD450) values for anti-rWSP IgG1 antibodies.....	35
Figure 7 Optical density (OD450) values for anti-rWSP IgG2 antibodies.....	36
Figure 8 Optical density (OD450) values for anti-rWSP IgG3 antibodies.....	37
Figure 9 Optical density (OD450) values for anti-rWSP IgG4 antibodies.....	38

ABBREVIATIONS

ADLA	acute dermatolymphangioadenitis
ADL	adenolymphangitis
AFL	acute filarial lymphangitis
CDC	Communicable Disease Control
CFA	circulating filarial antigen
CP	chronic pathology
°C	degree Celsius
DEC	diethylcarbamazine
EDTA	ethylenediaminetetraacetic acid
ELISA	Enzyme-Linked Immunosorbent Assay
IgE	immunoglobulin E
IgG	immunoglobulin G
IgM	immunoglobulin M
IL	interleukin
kg	kilogram
LBP	lipopolysaccharide-binding protein
L1	first-stage larvae
L3	third-stage larvae
mf	microfilaria
mg	milligram
ml	milliliter
M	molar
OD	optical density
PBS/T20	phosphate buffered saline/Tween 20
rWSP	recombinant <i>Wolbachia</i> Surface Protein

SCID mice	severe combined immunodeficient mice
sTNF-Rs	soluble TNF receptors
TNF	tumor necrosis factor
TNF- α	tumor necrosis factor alpha
TPE	tropical pulmonary eosinophilia
VDC	Center of Vector Borne Disease Control
WSP	<i>Wolbachia</i> surface protein
μg	microgram
μl	microliter
